Instructions

This is a test of your ability to organise and prioritise work. You will be presented with information in timetables, charts and tables and will need to respond to a series of questions based on this information. There are a total of 24 questions. For each question you will be presented with five options. Your task is to choose which of these five options is correct. Only **one** of the five options will be correct for each question.

Here are some example questions. These example questions are not timed or scored. They are here to help you to understand how to complete this test.
