●		Date of Commission proposal

Digital Single Market

Creating a Digital Single Market –
European Commission actions since 2015

19 April

Commission's plans to help digitise European industry

EU eGovernment Action Plan 2016-2020

Outline of the priorities for common ICT standards to boost digital innovation

Commission's plans to create a European Open Science Cloud

25 May

Commission's plan to tackle unjustified geo-blocking

To ensure that consumers seeking to buy online in another EU country are not discriminated against in terms of access to prices, sales or payment conditions.

Commission's initiative to make cross-border parcel delivery more affordable and efficient

Increased price transparency and regulatory oversight of cross-border parcel delivery services.

Commission's proposal to updated Audiovisual Media Services Directive

To extend the rules applying to traditional broadcasters also to video-on-demand providers and video-sharing platforms.

Commission's initiative to revise the consumer protection cooperation

Giving more powers to national authorities to better enforce consumer rights.

Updated guidance on the Unfair Commercial Practices Directive

New approach to online platforms as responsible players of a fair internet ecosystem

2 June

European Agenda for Collaborative Economy

10 June

New Skills Agenda for Europe

15 June

Commission's initiative to regulate wholesale roaming prices

As of 15 June 2017 travellers do not have to pay roaming charges in the EU. This is possible due to significant price drop in what the operators can charge each other.

14 September

Two Commission proposals to modernise EU copyright rules and to facilitate access to content online

Better choice and access to content across borders, improved rules on education and research, a fairer and sustainable marketplace.

Commission's plan to strengthen EU level coordination of electronic communications

Enhancing the role of the Body of European Regulators for Electronic Communications.

Commission's initiative for new the European Electronic Communications Code

Modernisation of the current EU telecoms rules for boosting long-term investments with better use of radio frequencies, stronger consumer protection and safer online environment.
