

# 2015 Oxford Adaptation Academy

Professional skills are needed to adapt to climate change. The knowledge base and competencies required are rapidly changing as organisations gear up programmes and communities engage in action. GCAP and the Smith School of Enterprise and the Environment, at the University of Oxford, bring together world experts in a programme that integrates the technical and leadership skills needed to take forward adaptation. Now in its 6<sup>th</sup> year, our senior team has a proven track record in delivering leadership-based capacity building through the Oxford Adaptation Academy.

Our diverse international network of academy alumni now covers 35 countries

Project development  
for direct benefits to  
your organisation

sustainability policy

Climate data &  
scenarios

Leadership

Project development

Three weeks of focused  
and comprehensive  
learning

Internationally  
renowned academic  
community

Multi-disciplinary  
training from  
expert faculty

*“I came across multiple ways of framing concepts like adaptive capacity, vulnerability, adaptation landscape etc, which have informed the ways in which I conceive of these issues as part of my research.”*

*Basharat Saeed, Lahore University of Management Sciences, 2014*

*“The Academy enriched my knowledge of a holistic approach to adaptation: how socio-economic, institutional, and theory of change applies. My skills in stakeholder analysis, project design are improved.”*

*Pham Thi Dung, Ministry of Agriculture & Rural Development, Vietnam, 2013*
