10.55	<p><u>Talanoa Call for Action:</u> We call upon Parties to work closely with non-Party stakeholders to enhance global ambition by 2020 and to develop long-term, low-emission development strategies.</p> <p>SESSION 1 Enabling Pacific NDC implementation and enhancement Pacific island countries are committed to delivering more ambitious NDCs by 2020. However, it is clear that robust supporting mechanisms will be needed to ensure Pacific Island countries successfully meet current and future ramped up NDC targets. Pacific island countries are calling out for increased climate action to achieve net zero emissions by 2050, a requirement to keep global temperature increase to within 1.5 °C. This would require long-term plans to ensure any planned transition stays on track. This session will examine recent developments and aspirations for enabling environments for Pacific NDC implementation and enhancement, including the development of long-term low emission development plans.</p>	
	<ol style="list-style-type: none"> 1. Addressing challenges and capitalising on opportunities through the Pacific Regional NDC Hub – Ms Vanda Ting, Assistant CEO, Ministry of Natural Resources and Environment, Samoa 2.
