## EUD-Liberia Funding (€ 5.9 M/ USD 7M) Waste Collection Chain for Monrovia City Corporation

(Source: Government of the Republic of Liberia 2015, p. 96)

COMMUNITY  
BASED  
ENTERPRISES

Strengthened, sustainable CBEs collect more waste and employ more people

CBEs extract & recycle organic and plastic waste

Young people have their awareness raised on recycling, reusing, & reducing waste

Capacity Built of stakeholders

Researching and costing models of W2E

Capacity of CBEs, local and national stakeholders to work with W2E.

Piloting W2E through small grants facility

Long Term SWM for Greater Monrovia

**Climate-Resilient Solid Waste Management Services  
through Community-Based Enterprises**

**4.9 million**

**48 Months**

**Component 1:  
Collect more waste**

**Component 2:  
Extract and reuse plastic  
& organic matter**

**Component 3:  
Increase awareness &  
education**

**Component 4:  
Integrated SWM systems  
& Capacity**

**Implementing Waste to Energy Innovative Approaches  
in Greater Monrovia**

**1 million euro**

**24 Months**

**Component 1:  
Costed Model of W2E**

**Component 2:  
Build capacity to  
integrate W2E**

**Component 3:  
Pilot W2E**

**Component 4:  
Project Oversight**

**PROJECT BOARD: EU-LIBERIA**

# IMPACT

## EU-funded projects of Liberia Country Programme

### Collect More Waste

Improved access to sanitation through more sustainable and efficient solid waste collection in Greater Monrovia

### Pilot Innovation

Reduced greenhouse gas emission through improving extracting, sorting and re-use of solid waste in Greater Monrovia

### Outreach Campaign

Improved awareness of Climate Change and climate-resilient solid waste management in the GM population with a focus on youth.

### Systems, Governance and Policy

Improved and integrated plans and capacity to manage and fund SWM for GM.
