

Informing protection risk assessments and protection objectives with normative frameworks

A given group at risk of forced displacement

Threats: nearby combats, confined due to them

Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

Informing protection risk assessments and protection objectives with normative frameworks

A given group at risk of forced displacement

Threats: nearby combats, confined due to them

Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

Informing protection risk assessments and protection objectives with normative frameworks

A given group at risk of forced displacement

Threats: nearby combats, confined due to them

Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

[illegible][illegible]

Non discrimination:

- all are entitled to local services based on population and needs
- shouldn't make for specific public affairs, e.g. any discrimination on basis of religion, age, ethnicity, religious belief, etc.
- all are entitled to support beyond the 12 month period for public.

Non discrimination:

- all are entitled to local services based on population and needs
- shouldn't make for specific public affairs, e.g. any discrimination on basis of religion, age, ethnicity, religious belief, etc.
- all are entitled to support beyond the 12 month period for public.

[illegible]

Threats to life and other acts of violence

- If an attack, violent assault or sexual harassment, rape, grooming or sexual act, or an act of violence is suspected or occurred at your health centre (physical or mental health)
- If a subject of any level of threat
- If someone has been sexually abused or if a threat, or an intention of violence, is made
- If you suspect the situation

Threats to life and other acts of violence

- If an attack, violent assault or sexual harassment, rape, grooming or sexual act, or an act of violence is suspected or occurred at your health centre (physical or mental health)
- If a subject of any level of threat
- If someone has been sexually abused or if a threat, or an intention of violence, is made
- If you suspect the situation

Threats to life and other acts of violence

Informing protection risk assessments and protection objectives with normative frameworks

**A given group at risk of forced
displacement**

Threats: nearby combats, confined due to them

**Vulnerabilities: no access to food, people perceived
as supporters to one side of the conflict**

Threats: nearby combats, confined due to them
Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

[illegible]

- Given elected by local voters, usually by position, and are allowed to participate in public affairs, as in the case of the local council members, village head, etc.
- Given a mandate of representing people in a public position is called...

We may have more elements if we look at the applicable normative framework...

- Threats to life and other acts of violence

- It can be classified: What's primary is a variable constituent, while the rest are unchangeable, as you learned in 6-lesson, as an subject of primary morpheme analysis (primary morpheme is not a affixation)
- It can be subdividing form of identity
- It occurred in formal structure called as a substructure, as the case of the morpheme/inflection.
- It is accepted for derivation.

Special words:
- substance and health
- property
- healthy and...

Non discrimination:

-IDP are rejected by local authorities and/or population, and are not allowed to participate in public affairs, or are discriminated on the basis of opinion, expression, religion or belief, etc.

-IDP are accused of supporting any of the armed parties to a conflict.

Movement-related protection problem

- People are forcibly displaced for arbitrary reasons.
- People has to flee as a result of armed attacks (either discriminate or indiscriminate), “ethnic cleansing” or collective punishment, and /or are displaced in an insecure and inadequate conditions.
- People with special attachment to their lands are displaced without special protection.
- IDP are confined in camps, they are not allowed to leave from them and are under disciplinary regime.
- IDP are forbidden to pass or are detained at check points in roads.
- IDP are forcibly relocated.
- Borders are closed to prevent IDP to seek asylum as refugees.
- IDP are taken as hostage by an armed actor.

-IDP are attacked, killed (arbitrary or massive executions), suffer genocide, are disappeared, or are tortured or ill-treated, or are subject of gender-specific violence (such as rape or forced prostitution).

-IDP are subject of any form of slavery.

-IDP are used as human shields in combat or attack areas, or are exposed to anti-personal landmines.

-IDP are subjected to starvation.

forced recruitment

Special needs:

- subsistence and health
- property
- family unity....

Threats: nearby combats, confined due to them
Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

[illegible]

Individual and mass arrival: the determination of refugee status:

- Refoulement
- Separation of members of refugee families
- Forced recruitment
- Sexual violence and extortion / coercion at the border
- Cross-border attacks
- Combatants mixed with civilians in refugee reception centres
- Unaccompanied women and children face more risks
- Special subsistence needs of vulnerable groups
- Mental health needs of those who have suffered traumatic experiences pre-flight and in flight.
- Mass detention or arbitrary arrest.
- Lack of information and people with language skills.
- Trafficking and smuggling of people.

ASylum

- Refugees (and especially women, children, etc) are very vulnerable in

Threats: nearby combats, confined due to them
Vulnerabilities: no access to food, people perceived as supporters to one side of the conflict

[illegible]

- Given elected by local voters, usually by position, and are allowed to participate in public affairs, as in the case of the townships in Japan, Singapore, village head, etc.
- Given a mandate of representing people in a public position is similar.

We may have more elements if we look at the applicable normative framework...

(It is recalled that delivery is synchronous with the presentation of the stimulus, as per Section 5.6.1, or is subject to a pre-specified delay (not longer than 10 seconds).)
