

**Report on Selection of the Private Operator for the Kangi Agro- Processing Centre,
Kangi County, Wau State**

1.0 Background:

Drawing the decision based on the experiences of GIZ's Public Private Partnership (PPP) approach for management and operation of the slaughter houses in the Greater Bahr El Ghazal region and following several meetings and discussion between the project stakeholders in which it was resolved and agreed upon that the pilot Agro- Processing Centre constructed by UNIDO in four locations in the Greater Bahr El Ghazal region (former WBG, NBG, Warrap and Lakes States) shall be operated under public private partnership (PPP) mode. This means the facility be legally owned by the local government but it will be run, managed and operated by a private business person.

In May 2016, the UNIDO project team after consultations with the States and County authorities, developed criteria for the selection of operator and call for proposal for the management of the APCs (**See Annex 1**) In addition to that a process for recruitment of private operator was initiated. Call for submission of application by the interested companies or individual business entity/individual was drafted and published in the counties headquarters where the APCs are located.

The call for proposals which was published in June 2016 at all the locations with exception of Aduel Lakes State contains clearly stated criteria, terms and conditions, date line, and place where the application should be submitted. Unfortunately, the process was interrupted due to Wau and Juba incidences by the end of June and early July, respectively. The process was revived during October 2016 and selection of the private operator for the Kangi agro processing center finished by early November. Process will continue during November and early December to finish identification and selection of operators for the remaining three agro processing centers.

2.0 Formation of the selection committee

UNIDO project team had a meeting with the Director General (DG), State Ministry of Agriculture Wau State on Monday 31st of Oct 2016 at the State Ministry of Agriculture HQs During the meeting, the DG was briefed on the progress of the project and the planned activities. In addition, UNIDO informed the DG that the project is now in the process of recruitment of a private operator to run and manage the APC in Kangi and for this he was requested to facilities the formation of a selection committee which he readily accepted.

The DG formed the selection committee which initially comprised of eight (08) members representing all the related sectors and stakeholders. (Annex 2)

2.1 Composition of the Committee:

The committee comprises of the State Director of Agriculture, County Executive Director, UNIDO project coordinator, Paramount Chief and community leader, women and youth representatives, Chairman of the Chamber of Commerce, Agriculture and Industry and a representative from local security office.

2.2 Duties and Responsibilities

The committee was assigned to carry out the following duties and responsibilities based on the TOR.

- Evaluate applications and business proposals submitted by the applicants
- Shortlist applicants based on their rating
- Evaluate the financial capacity of the applicants shortlisted
- Conduct personal interviews with the shortlisted applicants
- Decide the right applicant for APC operation
- Announce the successful applicant
- Any other duty deem necessary for the selection of an appropriate private operator.

3.0 Committee Findings and Recommendations

After the committee members were notified through written letters and telephone calls, the committee members agreed to meet on the 2nd of Nov 2016 to carry out their assignments and the applicants who submitted their application were also informed to attend the scheduled interviews.

3.1 Meeting place and time

The committee members met on 2nd November 2016 at the Kangi main market between 11.00 AM to 3.00 PM

3.2 Agenda

- Brief background about the UNIDO's project
- Evaluation of applications (personal interview and the business proposal).
- Shortlist applicants based on their rating
- Evaluation the financial capacity of the applicants shortlisted
- Announce the successful applicant
- AOB

3.4 Minutes of Meeting:

3.4.1 Brief background about the UNIDO's project

The meeting was officially opened by the Chairman of the selection committee. On his opening remarks he welcomed all the committee members and explained that the committee is tasked to review and evaluate the applications submitted and select the right person to operate the APC for the coming one year. He requested UNIDO project coordinator to give a brief background of the project and explain what is expected by the end of this meeting.

UNIDO project coordinator explained that UNIDO is implementing a project on value addition and value chain development in the Greater Bahr el Ghazal region of South Sudan. Project is funded by the European Union (EU) and it is part of the overall ZEAT-BEAD programme jointly implemented by FAO, UNOPS, GIZ and UNIDO. Main objective of UNIDO action under the ZEAT-BEAD Project is developing and

implementation of value chain upgrading strategies for the five identified commodities (groundnut, sorghum, rice, fish and hide and skin) and capacity building of actors operating in the identified five value chain in the Greater Bahr el Ghazal region.

UNIDO is focusing specifically on small household producers and small private business owners to create a sustainable and simple marketing network by developing and implementing upgrading value chain strategies. It will focus as well on building the capacity of the different actors to operate in the value chain and tune to technological and business features for more value addition of their production asset. UNIDO will carry its activities under this project in a concerted and coordinated approach with the other implementing agencies and NGO's delivering under the EU global action. The commodities identified by UNIDO for upgrading value chain include sorghum, groundnut, rice, fish and leather (hide and skin).

In addition, UNIDO is in the process of establishing four agro processing and training centers in the GBEG region with modest facility for sorghum grinding and groundnut oil production and build capacity of farmers groups and other stakeholders on post harvest management, storage and marketing of agricultural produce.

In June 2016, during the validation workshop in Wau, it was decided that the agro processing center shall be managed under Public Private Partnership (PPP) mode where the local government will be the legal owner of the facility but it will be operated and managed by a private operator. In order to manage the Kangi agro processing centre, the State Ministry of Agriculture, Wau State together with the County Agriculture Department and UNIDO published a call for proposals from private businessman or companies for the commercial operation of the APC in Kangai.

The call for proposals/applications was published on June 24th, 2016 and only one application received. Then the call for application was republished on 18th Oct 2016 and deadline was extended for some more time but no any additional application received.

Therefore, after consultations with the relevant authorities at the State and County level it was agreed that the submitted application will be evaluated and a decision will be taken based on the findings. This is the reason why we are here today to evaluate the application and take a decision.

3.4.1.2 Reactions:

The chairman thanked UNIDO project coordinator for the lengthy explanation on the background of the project and for briefing the meeting on why they are here today and what is expected from the committee members. The chairman asked the committee members to give their opinion of the situation at hand that there is only one candidate applied and wanted to know the way forward for this meeting.

3.4.1.2.1 Paramount chief reaction:

The paramount chief of Kangi County thanked UNIDO for the effort and follow-up to ensure construction of APC on reasonable time. He said that as Kangi Paramount Chief and in the name of the entire Kangi Community are very appreciative to UNIDO and the EU for allocating required fund to implement this project. He said that UNIDO gain their trust for fulfilling their promises they have made early this year when we had the first meeting with them and when they requested for the piece of land where the APC is currently build. He said that they are waiting for the other agencies that made their promise such as GIZ to come and build the warehouse. Also he encouraged UNOPS to continue the road construction.

About the call for submission of application to run the APC, the paramount chief said he is very aware of the whole process and he has seen by his eyes the advertisement was posted in many places around Kangi and the nearby villages. The paramount chief attributed the reasons for people not applying was most likely due to the conditions put on the advert especially the two last conditions i.e.:

- Willing to re-invest part of the profit for the expansion of activities at the APCs.
- Must have bank account with at least 10,000 SSP.

He explained that the Kangi Business Community is very poor and they have very little money to invest on the APC. He also explained that very few have bank accounts and their balance maybe very low and might not reach up to 10,000 SSP mentioned in the criteria for applications. He also said that although only one person has applied but it is believed that the applicant has the capacity to operate and sustain the operation of the APC. Therefore, he advised the committee to proceed with their work to look into the document for evaluation and interview and then decide.

3.4.1.2.2 Women representative reaction:

The women representative started by acknowledging the work done by UNIDO so far and said that as women community they are very happy because they believe that the APC shall help them a lot and will make their life easier because at present local community maily grinding sorghum using traditional methods with consume time and energy. She also commented that this is the first project of its kind in Kangi and she encouraged UNIDO to continue doing this good work.

As for the application process she said that they were also aware of the call for proposal and she regretted that no women applied. The women representative supported the opinion of the paramount chief that the committee continue their work to evaluate the received proposal.

3.4.1.2.3 County Executive Director reactions :

The County Executive Director said that he has also been following the progress of the construction of Kangi APC and he is very happy that the project has reached to this

stage and now the building is ready awaiting the arrival of the machines. He commended UNIDO and the EU for this great addition to Kangi market. He said that the Kangi market is growing very fast and the marketing activities have increased rapidly in recent time as compared to the last two years. He said people can see especially during the market day's local community are coming all the way from Buarurd, Kuajok and Wau to buy local produce and he believed when the APC is fully operational and GIZ build the warehouse this market shall prosper.

In regards to the call for proposal he said that the county authorities have been involved in the process right from the first day. He mentioned that it is unfortunate that only one person had applied even though he encouraged many people to try their luck.

3.4.1.2.4 Resolution by the committee members:

The chairman of the committee seconded the idea of the paramount chief, women representative and the executive director that given the situation only one candidate has applied we need to go ahead with the evaluation process. **DO YOU SUPPORT THIS IDEA THAT WE GO AHEAD TO EVALUATE THIS APPLICATION?** Asking the committee members and further suggested whoever support the idea that we should go ahead with the evaluation should raise his hand up. All the group members raised their hand up in the support of the continuation of the evaluation of the only one proposal received.

3.5 Evaluation of application, personal interview and business proposal submitted by the applicant

The chairman requested the applicant to appear in front of the panel and requested his application to be presented in front of the committee. The executive director who is the co-chair of the committee brought the application and opened the envelope in front of the committee members and handed it over to the chairman. The chairman asked the committee secretary to read loudly the application to the committee member as they are taking notes on the application for deliberation.

3.5.1 The applicant was asked the following questions:

- Applicant Name: James Buola Piel
- Date and place of birth: 01/01/1983
- Nationality: South Sudanese
- Address: Kangi, Wau State
- Professional: Business man
- Marital Status: Married

The following points/criteria were considered for the evaluation of the application:

3.5.2 The applicant/ Candidate (60 marks)

The candidate was evaluated on the following criteria

- a. Must be a South Sudanese individual or company (25 Marks)

He got "YES" because the applicant is a South Sudanese

- b. Must be a legal entity to do business in South Sudan (5 marks)

He got "YES" because he is individual business person who owns a retailer shop at Kangi Market for the last eight (8) years

- c. Have some previous experience of managing a business (10 marks)

It was confirmed that he had been doing business for the last 8 years in Kangi main market and his shop is visible to everyone.

- d. Have good working relationship with local communities & local authorities (5 marks)

The paramount chief, youth representative, security and police, executive director and the women representative all confirmed that they had known the applicant since the childhood and he enjoyed good relationship with the local community and authorities.

- e. Have no previous criminal records (5 marks)

The security and police representative were asked if the applicant has committed any previous criminal offense or was jailed before. The security representative testified that the applicant has a clean record and have not been suspected or arrested of any crime.

- f. Willing to re-invest part of the profit for the expansion of activities at the APCs (5 marks)

The committee chairman asked the applicant if he is ready to reinvest and expand the APC? The applicant answered YES i.e he is willing to invest and expand the APC if he is offered to run and manage the APC.

- g. Must have bank account with at least 10,000 SSP (5 marks)

The applicant said that he has a bank account with the Kenya Commercial Bank (KCB) and he has above 40,000 SSP in his account. The Committee could not immediately verify his claim. So he was asked by the committee to submit latest bank statement within one week time from the date of this interview.

3.5.3 Evaluation of the application and business proposal (40 Marks)

The application and the business proposal were evaluated on the SMART analyses approach (10 marks).

There was a short business proposal presented by the applicant that was evaluated and the committee resolved that it has to be improved to reflect the actual plan on how the applicant wanted to do the business activities at the APC. Also the proposal should include a projection of how much profit expected out of the APC quarterly and how the profit shall be distributed among the stakeholders.

3.5.4 Evaluation of the financial capacity of the applicants' shortlisted (30 marks)

The local community including some member of the evaluation panel acknowledged that the applicant is a successful business person and his current shop worth of above 120,000 SSP. In addition to the community testimony the applicant said that he is financially capable since he has been doing business with FAO and other agencies in relation to seeds business.

4.0 Committee Resolution:

After deliberation on the result of the both the personal interview, assessment of the application and business plan, the committee resolved that **Mr. James Buolla Pael** is qualified to be nominated for the management of operation of the Kangi Agro-processing Centre at Kangi main market on condition that he should improve the business proposal submitted for the running and management of the APC.

4.1 Follow up actions:

5.0 - Annexes:

5.1 Annex 1: Call for Proposals

EU Project on Enhanced Value Addition and Strengthening
Value Chains in the Greater Bahr El Ghazal region, South Sudan

Date: 10th June 2016

**Call for Proposal for the Management of the Agro-Processing Centre (APC)
at Kangi, Jur River County, Wau State**

The State Ministry of Agriculture, Wau State and County Authorities in Kangi, in cooperation with the United Nations Industrial Development Organization (UNIDO) and funding from the European Union (EU) are in the process of establishing and agro processing centre at Kangi Market. The APC is being established under Public Private Partnership (PPP) mode where the local government will be the legal owner of the facility but it will be managed by a private operator. In order to manage the Kangi agro processing centre, the State Ministry of Agriculture, Wau State together with the County Agriculture Department and UNIDO is inviting call for proposals from private businessman or companies for the commercial operation of the Kangi.

The requirements for the application are as follows:

1. Must be a South Sudanese individual or company
2. Must be a legal entity to do business in South Sudan
3. Have some previous experience of managing a business.
4. Have good working relationship with local communities & local authorities
5. Willing to re-invest part of the profit for the expansion of activities at the APCs.
6. Must have bank account with at least 10,000 SSP.

Duties of private operator

- a. Day to day management of operations at the APC
- b. Maintain all facilities at the APC, including office, water facilities, toilets, fence, etc.
- c. Employ and manage staffs for operation of the APC
- d. Keep records of sales and income in transparent and accountable manner
- e. Collect revenue at the APC and pay financial beneficiaries at agreed time
- f. Keep records of activities conducted at the APC on daily basis
- g. Submit data and reports to the stakeholders on agreed time

- h. Report any service operational problems affecting security, infrastructure, damages beyond normal usage, behaviour of user to the county authorities.

Interested person/company can submit the applications to County Agriculture Dept. along with a simple business plan on sorghum milling on or before **20th June 2016**.

Applications will be assessed by a panel including all stakeholders (SMA, County Agriculture Dept, County Commissioner and UNIDO).

Shortlisted candidates will be invited for oral presentations. The successful candidate will be offered contract initially for 1 year to be renewable based on performance.

Subject Application for Employment
Dear Sir / Madam

I am here by submitting my application to your highly Office Seeking for the position of Management & Agro-processing centre Kangji.

I am a business Man, I open my Shop in Kangji, 2007 upto date and I have an account in KCB Wau branch with 13,100 SSP in my account and 48,220 SSP are still with NGOs who buy my sorghum 11 Sacks.

This 48,220 SSP are still with AFOD \$ UN FAO, this money are going to my account, well I am still waiting them. The attach is a true copy of 48,220 SSP from those organizations and (CV) is attach together.

This would make me to fulfil my long hope of day and night dreaming to become a Staff of UNIDO. I shall be very functional and honest towards your Office and I am ready to work under rules and regulation of this organization.

Thanks

Yours faithful applicant
