Food & Agriculture

**IMPACT (Overall Objective)**

1. No poverty
2. Zero hunger
5. Gender equality
8. Decent work and economic growth
12. Sustainable consumption and production
13. Climate action
14. Life below water
15. Life on land
16. Peace, justice and strong institutions

**OUTCOMES (Specific Objective)**

- Enhanced rural diversification
- More inclusive value chains
- Increased use of land, infrastructure, services and markets
- Increased sustainable production and productivity of agriculture, husbandry and fisheries
- More sustainable and inclusive Natural Resource Management (NRM)
- Reduced food loss and waste
- Adequate dietary intake
- Improved hygiene, childcare and feeding practices
- Women empowered to participate in decisions about the use of productive resources and HH income
- Increased uptake of basic healthcare and social services
- Improved prevention of and preparedness for food crises
- Improved FNS & SA governance
- Increased investment in agriculture
- Increased application of learning, innovation and improved technologies in FNS & SA

**OUTPUTS**

- Rural infrastructure (re)constructed/delivered (transport, water and irrigation, storage, internet connectivity, etc.)
- Increased access to productive inputs/tools/equipment
- Strengthened agricultural and rural services available
- Marketing services available for [*farmers/producers/associations/cooperatives*]
- Capacities of [*beneficiaries*] for [*topic*] developed
- Increased awareness of e.g. family planning, nutrition, sanitation and hygiene, environmental protection and DRR
- Social capital developed
- Improved access to nutritious food (food diversification, micronutrients content, food safety, etc.)
- Improved coverage of basic services (health, WASH, childcare)
- Disaster Risk Reduction "DRR" plans developed
- Improved food stock management systems
- Up-to-date information, data and statistics available (market, nutrition, food security, resilience, production, etc.)
- Multi-stakeholder platforms established
- Policies, legislation, regulations and action plans developed (including on land tenure, water, biodiversity, nutrition, territorial development, food security, food prices, fiscal, etc.)
- PFM reform plans and strategy developed

**Related SDGs**

- To foster inclusive growth (PEOPLE, PROSPERITY)
- To contribute to sustainable agriculture (PLANET)
- To improve the population’s nutritional status (PEOPLE)
- To increase (systemic) resilience to food crises and climate change (PEOPLE, PEACE)
