Sustainable Cities

Results and Indicators for Development
Results and Indicators for Development

General Introduction

This guidance for action design has been developed by INTPA Unit D4 “Performance, Results and Evaluation; Internal Communication, Knowledge Management and Collaborative Methods” jointly with INTPA Thematic Units.

It is addressed to all colleagues involved in the preparation of action documents and project documents and offers a handy tool to develop solid logical framework matrices. It identifies clear and measurable results statements that are in line with INTPA policy priorities, as well as with the UN Sustainable Development Goals (SDGs), along with a range of good indicators to monitor progress. It will be updated regularly to reflect evolving priorities.

Its main objective is to enhance the quality of INTPA interventions – both in terms of design as well as of monitoring and reporting in the course of implementation.

The need for this type of guidance was identified in the framework of the results-reporting process led by INTPA D4, as well as through its systematic review of all action documents presented to Quality Review Group meetings.

The present guidance covers INTPA strategies in various sectors, and presents for each sector:

1. EU policy priorities: a short narrative explaining EU policy priorities and commitments as articulated in key policy and strategic documents.

2. Results Chain: a diagram showing the main results (impact, outcomes, outputs) that EU development interventions are expected to achieve in the sector, reflecting EU policy priorities and commitments.

3. List of Sector Indicators: examples of measurable indicators associated to each result statement are provided, that may be used in Logframe Matrices at project/programme level.

You can access the online Sector Indicator Guidance at https://europa.eu/capacity4dev/results-and-indicators. For further information and/or to provide feedback please contact INTPA Unit 04 at INTPA-EU-RESULTS@ec.europa.eu
1. EU Policy Priorities

Rapid urbanisation means that global challenges such as poverty, environmental degradation, climate change, conflict and rapid population growth, including through migration and forced displacement, are to be dealt with in urban locations. At the same time, this rapid urbanisation makes it easier for cultures to mix and for knowledge to be exchanged, both of which are factors that promote innovation. Well-managed urban and territorial development can thus offer innovative solutions for these global challenges, turning them into opportunities for sustainable development.

The importance of cities and local authorities in the development process has been highlighted in recent international and EU policy documents. Sustainable Development Goal (SDG) number 11 of the UN 2030 Agenda aims to ‘Make cities inclusive, safe, resilient and sustainable’. Many other sustainable development goals have clear urban dimensions.

The [Urban Agenda for the EU](https://www.europarl.europa.eu/ews/docs/AgendaEUA/2020/20200129-CA-2816.pdf) also reiterates the principles for sustainable urban development contained in the sustainable development goals.

The EU’s external policy has supported urban development for many years, but mainly from a sectoral perspective (focusing on areas such as infrastructure, water and sanitation, waste management). The European Consensus on Development, between the EU and its Member States, stresses the need to focus more on cities and local authorities as important actors in achieving the sustainable development goals. This requires the EU to promote a more integrated approach to urban development, including by strengthening the development-humanitarian nexus. This can be achieved by involving the private sector and by finding additional sources of funding for EU investments.
**EU Strategic Priorities**

In 2018, the [SWD on the EU’s Cooperation with Cities and Local Authorities in Third Countries](#) was adopted. The support by the EU external cooperation policy to the planning, financing, and governance of cities is accompanied by an integrated and territorial approach to urban development, with a specific focus on the following four areas:

- **Good urban governance** at various levels of administration (local, regional, national) and between different actors (elected officials, civil servants, citizens’ groups etc.). This fosters civic engagement and ensures inclusive participation in integrated planning and public finance management.

- The **social dimension** of urban development through inclusive and safe cities in order to better address urban poverty, inequalities, food insecurity, malnutrition, forced displacement, migration and social exclusion.

- **Green and resilient cities** through the sustainable use of natural resources and protection and enhancement of natural capital (energy efficiency and biodiversity in cities) and the transition towards a low-carbon, climate resilient and circular economy. This reduces the risk of and vulnerability to natural disasters and the ecological, economic and health impacts of pollution.

- **Prosperous and innovative cities** with a focus on sustainable growth and job creation, fostering a responsible business environment and making it attractive to invest in the ‘green economy’ and in clean technology.

Please see other INTPA sector guidances for more information on results and indicators in the field of [forced displacement](#), [food and nutrition security and sustainable agriculture](#), as well as [nutrition](#).
2. Results Chain

Primary SDG targeted
11. Sustainable cities and communities

Overall objective - IMPACT
Specific objectives - OUTCOMES OUTPUTS

GREEN AND RESILIENT CITIES
1. Improved capacities of cities to design and implement urban climate change strategies for mitigation and adaptation
2. Improved capacity and facilities for a more efficient and sustainable use of energy in cities
3. Increased provision of green areas
7. Increased facilities, service and planning for business development
8. Enhanced financing capacities of cities, i.e. improving collection of local taxes, procurement, etc.
9. Improved capacities and facilities for sustainable urban mobility
10. Improved capacities and facilities for the provision of water and sanitation services
13. Improved capacities of city authorities to design and implement security measures and strategies
14. Opportunities provided for dialogue and cooperation between city authorities, civil society and private sector on urban management
15. Improved capacities of city authorities for integrated urban planning
11. Improved capacities and facilities for decent and affordable housing provision
12. Strengthened system for land management and security of tenure in urban areas

PROSPEROUS AND INNOVATIVE CITIES
4. Improved capacities and facilities for urban waste management
5. Improved capacities and facilities for the application of smart city solutions
6. Cities better connected to surrounding rural areas

SOCIAL DIMENSION OF URBAN DEVELOPMENT
2. Improved environmental management and climate mitigation by targeted cities
3. Strengthened urban resilience to natural and man-made disasters
4. Increased accessibility and planning for the delivery of social services and urban mobility
5. Improved access to decent and affordable housing
6. Class better connected to surrounding rural areas
7. Sustainable jobs created with EU support
8. Effective measures for urban safety implemented

GOOD URBAN GOVERNANCE
1. Make cities and human settlements safe, inclusive, resilient and sustainable

Overall objective - IMPACT
Specific objectives - OUTCOMES OUTPUTS

GREEN AND RESILIENT CITIES
1. Improved capacities of cities to design and implement urban climate change strategies for mitigation and adaptation
2. Improved capacity and facilities for a more efficient and sustainable use of energy in cities
3. Increased provision of green areas
7. Increased facilities, service and planning for business development
8. Enhanced financing capacities of cities, i.e. improving collection of local taxes, procurement, etc.
9. Improved capacities and facilities for sustainable urban mobility
10. Improved capacities and facilities for the provision of water and sanitation services
13. Improved capacities of city authorities to design and implement security measures and strategies
14. Opportunities provided for dialogue and cooperation between city authorities, civil society and private sector on urban management
15. Improved capacities of city authorities for integrated urban planning
11. Improved capacities and facilities for decent and affordable housing provision
12. Strengthened system for land management and security of tenure in urban areas

PROSPEROUS AND INNOVATIVE CITIES
4. Improved capacities and facilities for urban waste management
5. Improved capacities and facilities for the application of smart city solutions
6. Cities better connected to surrounding rural areas

SOCIAL DIMENSION OF URBAN DEVELOPMENT
2. Improved environmental management and climate mitigation by targeted cities
3. Strengthened urban resilience to natural and man-made disasters
4. Increased accessibility and planning for the delivery of social services and urban mobility
5. Improved access to decent and affordable housing
6. Class better connected to surrounding rural areas
7. Sustainable jobs created with EU support
8. Effective measures for urban safety implemented

GOOD URBAN GOVERNANCE
1. Make cities and human settlements safe, inclusive, resilient and sustainable
## 3. List of Sector Indicators

### Result

#### Impact

**Make cities and human settlements safe, inclusive, resilient and sustainable**

</table>
### Outcome 1
**Improved environmental management and climate mitigation by target cities**

- **Area of target city comprised of natural or semi-natural areas**
  - **data source**: Ministry/agency administrative data

- **Proportion of residents in the target city living within 300m of a park or accessible natural/semi-natural area**
  - **data source**: Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Number of cities that adopted a climate change strategy whose development was supported by the EU-funded intervention**
  - **data source**: Adopted strategy document

- **Proportion of municipal solid waste collected and managed in controlled facilities out of total municipal waste generated in the target city**
  - **data source**: Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **EURF 2.21. Greenhouse gas (GHG) emissions avoided (tonnes CO2 eq) with EU support**
  - **data source**: The preferred data source of the net change in GHG emissions per year is the intervention feasibility or appraisal report. Estimates are expected to be available at the design stage of the intervention. Whether indirect emissions are included will vary by interventions.

- **EFSD 6.1. (energy/connectivity/water) Tonnes of oil equivalent fossil fuels avoided per year by renewable energy/energy efficiency intervention funded by the investment**
  - **data source**: Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **EFSD 3.1. (energy/connectivity/water) Number of people provided with access to clean cooking systems and fuel**
  - **data source**: Database of project beneficiaries

- **EFSD 3.2. (energy/connectivity/water) Energy savings as a result of energy efficiency measures at the annual level**
  - **data source**: Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **EFSD 2.2. (energy/connectivity/water) Additional electricity production from renewable sources, per year**
  - **data source**: Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Average daily consumption of water per capita in target city**
  - **data source**: Ministry/agency administrative data

- **Proportion of volume of water billed in relation to volume of water produced in target city on annual level**
  - **data source**: Ministry/agency administrative data

### Outcome 2
**Strengthened urban resilience to natural and man-made disasters**

- **SDG 11.b.2 - Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies**

- **Number of cities that adopted a disaster risk reduction strategy whose development was supported by the EU-funded intervention**
  - **data source**: Adopted strategy document

### Outcome 3
**Effective implementation and public funding of investment plans in urban areas**

- **Proportion of taxes collected in relation to planned tax collection in target city on annual level**
  - **data source**: Ministry/agency administrative data

- **Number of infrastructure investments realized through Public Private Partnerships**
  - **data source**: Ministry/agency administrative data

- **Value of infrastructure investments realized through Public Private Partnerships**
  - **data source**: Ministry/agency administrative data
Proportion of capital investment budget in relation to total city budget on annual level  
*data source* Ministry/agency administrative data

Proportion of capital investment budget executed annually in relation to the total planned capital investment budget in the target city  
*data source* Ministry/agency administrative data

Extent of implementation of the capital investment plan for the target city  
*data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

### Result Indicators

**Outcome 4**

**Improved national and city level policy framework for integrated urban development**

- **Status of adoption of the national urban policy by the government**  
  *data source* OECD National Urban Policy Programme, [https://www.oecd.org/cfe/national-urban-policies.htm](https://www.oecd.org/cfe/national-urban-policies.htm). If data are not available, Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Extent of implementation of the national urban policy by the government**  
  *data source* OECD National Urban Policy Programme, [https://www.oecd.org/cfe/national-urban-policies.htm](https://www.oecd.org/cfe/national-urban-policies.htm). If data are not available, Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Extent to which female and male city representatives participate in development of the national urban policy**  
  *data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **GAP III - Number of laws and policies where recommendations made by women’s rights organisations have been taken on board by regional, national and local government bodies during the drafting or revision process, including in conflict-affected contexts**  
  *data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Status of adoption of urban development plans in target city**  
  *data source* Text of strategies and policy documents

- **Extent to which city urban development plans adhere to principles of integrated urban development**  
  *data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Extent to which civil society and other partners participate in planning and monitoring the implementation of urban policies**  
  *data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **Level of horizontal coordination on policy framework for integrated urban development**  
  *data source* Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

- **SDG 6.1.1. (GAP III) Proportion of population using safely managed drinking water services**  

- **SDG 6.2.1. (GAP III) Proportion of population using (a) safely managed sanitation services and (b) a hand-washing facility with soap and water**  

- **EURF 2.9, under (a) new access: Number of individuals provided with new access to electricity with EU support, disaggregated by sex, location (rural/urban)**  
  *data source* EU interventions monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews, evaluations.

- **SDG 11.2.1. Proportion of population that has convenient access to public transport, by sex, age and disability status**  
  *data source* Baseline and endline surveys to be conducted and budgeted by the EU-funded intervention

Percentage of citizens who are [very/fairly] satisfied with the safety in target city, disaggregated by sex, age, population group, migration status

data source Baseline and endline surveys to be conducted and budgeted by the EU-funded intervention

Extent to which measures for urban safety designed with EU support, have been adopted and implemented by the city government

data source Progress reports for the EU-funded intervention

---

**Result**

**Output**

1. Improved capacities of cities to design and implement urban climate change strategies (mitigation and adaptation)

    - EURF 2.19, under (a): Number of countries and cities with climate change and/or disaster risk reduction strategies developed with EU support
      
      data source EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (governments, international organisations, non-state actors, etc.), ROM reviews, and evaluations.

    - EURF 2.19, under (b): Number of countries and cities with climate change and/or disaster risk reduction strategies under implementation with EU support
      
      data source EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (governments, international organisations, non-state actors, etc.), ROM reviews, and evaluations.

    - Number of beneficiaries trained by the EU-funded interventions with increased knowledge of climate change mitigation and adaptation strategies, disaggregated by sex
      
      data source Database of training participants; pre- and post-training tests

---

**Result**

**Output**

2. Improved capacity and facilities for a more efficient and sustainable use of energy in cities

    - Extent to which EU-funded intervention contributed to energy consumption efficiency of the target city systems
      
      data source Baseline and endline studies to be conducted and budgeted by the EU-funded intervention

    - EFSD 1.1. (energy/connectivity/water) Length of transmission lines constructed or upgraded with EU support
      
      data source Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

    - EFSD 1.2. (energy/connectivity/water) Length of distribution lines constructed or upgraded with EU support
      
      data source Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

    - EURF 2.10. Renewable energy generation capacity installed with EU support
      
      data source The preferred data source for Renewable energy generation capacity installed (MW) is the intervention feasibility or appraisal reports. Estimates or targets are expected to be available at the design stage of the intervention.

    - Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in energy efficiency and sustainability, disaggregated by sex
      
      data source Database of training participants; pre- and post-training tests

---

**Result**

**Output**

3. Increased provision of green areas

    - Area of urban green provided or restored in target city with support of the EU-funded intervention
      
      data source Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

    - Level of participation of citizens and public sector in initiatives for provision of green areas supported by the EU-funded intervention
      
      data source Progress reports for the EU-funded intervention

---

**Result**

**Output**

4. Improved capacities and facilities for urban waste management

    - EEFSD 1.12. Installed capacity for solid waste collection and disposal, per year
      
      data source Progress reports

    - Amount of urban waste collected in target city annually with support of the EU-funded intervention
      
      data source Progress reports for the EU-funded intervention

    - Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in urban waste management, disaggregated by sex
      
      data source Database of training participants; pre- and post-training tests
## Result Indicators

### 5. Improved capacities and facilities for the application of smart city solutions

- **Output**
  - Number of people with access to e-governance systems and services established and/or improved with EU support
  - **data source** Ministry/agency administrative data
  - Number of policy documents or sector strategies developed/improved by making use of machine-readable data with support of the EU-funded intervention
  - **data source** Progress reports for the EU-funded intervention
  - Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in smart city solutions, disaggregated by sex
  - **data source** Database of training participants, pre- and post-training tests
  - Number of e-governance systems and services established and/or improved with support of the EU-funded intervention
  - **data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents. Progress reports for the EU-funded intervention

### 6. Cities better connected to surrounding rural areas

- **Output**
  - Number of smallholders accessing city markets with the support of the EU-funded intervention, disaggregated by sex
  - **data source** Database of beneficiaries/participants
  - Number of measures implemented for better urban-rural linkages with the support of the EU-funded intervention
  - **data source** Progress reports for the EU-funded intervention
  - Extent to which EU-funded intervention contributed to connecting the city with rural areas
  - **data source** Progress reports for the EU-funded intervention

### 7. Increased facilities, service and planning for business development

- **Output**
  - Number of urban logistic infrastructure facilities supported by the EU funded intervention
  - **data source** Progress reports for the EU-funded intervention
  - Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in business development, disaggregated by sex
  - **data source** Database of training participants, pre- and post-training tests
  - EURF (GAP III) Number of beneficiaries with access to financial services with EU support: (a) firms, (b) people (all financial services), (c) people (digital financial services)
  - **data source** EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews and evaluations.
  - EFSD 5.1. (MSME financing) Number of cooperatives and/or social enterprises supported
  - **data source** Database of beneficiaries
  - Number of business development knowledge products and tools developed with support of the EU-funded intervention
  - **data source** Progress reports for the EU-funded intervention

### 8. Enhanced financing capacities of cities (i.e. improving collection of local taxes, procurement, etc.)

- **Output**
  - Extent to which the EU-funded intervention contributed to efficiency of administrative systems through utilization of ICT tools
  - **data source** Baseline and endline studies to be conducted and budgeted by the EU-funded intervention
  - Number of financial policies developed with the support of the EU-funded intervention
  - **data source** Progress reports for the EU-funded intervention
  - Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in public financial management and budgeting, disaggregated by sex
  - **data source** Database of training participants, pre- and post-training tests
EURF 2.30. Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency

**Data source**: EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews and evaluations.

**Result**

**Indicators**

9. Improved capacities and facilities for sustainable urban mobility

- **Output**

**EURF 2.16, under (a) Total length of road supported by the EU through construction**

**Data source**: EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews and evaluations. Other sources of intervention information may also include: design studies, tender documents and specifications (for expected results), supervisor reports and reports from site visits.

**EURF 2.16, under (b) Total length of road supported by the EU through rehabilitation**

**Data source**: EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews and evaluations. Other sources of intervention information may also include: design studies, tender documents and specifications (for expected results), supervisor reports and reports from site visits.

**EURF 2.16, under (c) Total length of road supported by the EU through maintenance**

**Data source**: EU intervention monitoring and reporting systems: annual and final reports from implementing organisations (e.g. governments, international organisations, non-state actors, etc.), ROM reviews and evaluations. Other sources of intervention information may also include: design studies, tender documents and specifications (for expected results), supervisor reports and reports from site visits.

**EFSD 1.1. Length of new or upgraded urban transport lanes**

**Data source**: Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

**EFSD 7.2 (energy/connectivity/water) Length of new or upgraded railways**

**Data source**: Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

**EFSD 7.3 (energy/connectivity/water) Additional port terminal capacity (number of passengers), per year**

**Data source**: Ministry/agency administrative data

**EFSD 7.3 (energy/connectivity/water) Additional port terminal capacity (containers), per year**

**Data source**: Ministry/agency administrative data

**EFSD 7.3 (energy/connectivity/water) Additional port terminal capacity (cargo), per year**

**Data source**: Ministry/agency administrative data

**Total length of new or upgraded transport waterways infrastructure supported by the EU-funded intervention**

**Data source**: Reports from the subcontractors, infrastructure/equipment handovers and inspection documents

**Number of urban mobility studies supported by the EU-funded intervention**

**Data source**: Reports published by the EU-funded intervention

**Extent to which urban mobility facilities designed/built with EU support are accessible to people with disabilities**

**Data source**: Progress reports for the EU-funded intervention

**Number and proportion of engineers, urban planners, and transportation staff trained on trained in universal design and accessibility standards, in connection with mobility devices and the rights of users of mobility devices, disaggregated by sex**

**Data source**: Database of training participants; pre- and post-training tests

**Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in urban mobility and transport, disaggregated by sex**

**Data source**: Database of training participants; pre- and post-training tests

| | EFSD 1.2. Length of new or rehabilitated water supply pipes in urban areas  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | EFSD 1.3. Length of new or rehabilitated sewer pipes in urban areas  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | EFSD 1.4. Number of new connections to water supply in urban areas  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | EFSD 1.5. Daily volume of new and/or improved urban water treatment process capacity  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | EFSD 1.6. Additional wastewater daily treatment capacity in urban areas  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| **Result** | EFSD 1.7. Surface of new and/or refurbished social and affordable housing units in urban areas, including slums  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| **Output** | 11. Improved capacities and facilities for decent and affordable housing provision |
| | Number of housing units built/refurbished by the EU-funded intervention  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | Status of development of feasibility studies on affordable housing supported by the EU-funded intervention  
**data source** Reports published by the EU-funded intervention |
| | Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in housing management, disaggregated by sex  
**data source** Database of training participants; pre- and post-training tests |
| **Result** | EFSD 1.15. Surface of new and/or refurbished social and affordable housing units in urban areas, including slums  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| **Output** | 12. Strengthened system for land management and security of tenure in urban areas |
| | Number of women and men who received support of the EU-funded intervention to secure tenure of land, disaggregated by sex, age  
**data source** Database of beneficiaries/participants |
| | Number of land records made publically available in target city with support of the EU-funded intervention  
**data source** Progress reports for the EU-funded intervention |
| | Number of ICT systems for land management in target city developed with the support of the EU-funded intervention  
**data source** Reports from the subcontractors, infrastructure/equipment handovers and inspection documents |
| | Number of beneficiaries trained by the EU-funded intervention with increased knowledge and/or skills in land management, disaggregated by sex  
**data source** Database of training participants; pre- and post-training tests |
