To Whom It May Concern

I take this opportunity to put in a good word for Mr. Fernando Sanchez.

Fernando was working at URIARTE in Puebla where we first collaborated. He did an excellent job designing, coordinating and promoting an exhibitio of my tile designs at the Expo at Abierto Mexicano de Diseño.

We also worked on a prize for an Architecture Award, and a cover for Glocal Design Magazine.

He was in charge of production at URIARTE and did an terrific job making samples and producing dinnerware and cups that I had designed.

I highly recommend Fernando and if more information is needed please don't hesitate in contacting me.

Sincerly,
