Sixth European Aeronautics Days

2nd Announcement

Innovation for Sustainable Aviation in a Global Environment

Palacio Municipal de Congresos - Madrid / Spain
30th March - 1st April 2011

The **Aerodays 2011** will bring together aeronautics stakeholders, ministries, agencies and R&D centres from all over Europe and overseas to network, present their latest research results and discuss common future R&D projects. Not only will there be technical sessions on a broad range of subjects, some inspiring examples of European funded aeronautics research will also be exhibited.

Organized by CDTI (Centre for the Development of Industrial Technology in Spain) and the European Commission (Directorate General for Research), **Aerodays 2011** will provide a perfect opportunity to present and disseminate information about EU-funded RTD results, and learn how to be involved in European aeronautics research in the future. It will be in line with the EU goals of creating a Single European Sky and a European Research Area, and of finding innovative approaches to sustainable aviation in a global environment.

TBC	Cultural Reception

Conference participants are invited to attend one of the visits to Spanish aerospace facilities that will be organized on Thursday 31st March 2011 in the afternoon.

The facilities to be visited are:

1. **AENA.** Terminal 4 of Barajas Airport (30 places)
2. **EADS-Airbus.** Getafe facilities (100 places)
3. **INDRA.** Torrejón de Ardoz (40 places)
4. **INTA.** (50 places)
5. **ITP.** Ajalvir facilities (60 places)
6. **IBERIA.** La Muñoza facilities (50 places)

Besides, Enterprise Europe Network Madrid will organize an international transfer technology event to exchange information between possible technological partners through aimed-to-agreement bilateral meetings (on 30th and 31st March).

To participate in any of these activities one must be previously registered to the **Aerodays 2011**.
