

QUIESST Final Event

Invitation

Quietestening the Environment for a Sustainable Surface Transport

Monday 10 December 2012

Radisson Blu EU Hotel, rue d'Idalie 35, Brussels
9.30 - 16.30

Dear Madam/Sir,

The QUIESST Consortium is pleased to invite you to the QUIESST Final event taking place in Brussels on Monday 10 December 2012 from 9.30 to 16.30.

The conference is organised for stakeholders from all over Europe in order to inform them about the QUIESST project's final results and to share ideas on optimisation and sustainable solutions for noise abatement through the use of Noise Reducing Devices (NRDs): noise barriers, claddings, covers, added devices.

During the conference the QUIESST GUIDEBOOK will be presented and distributed. This important publication summarising the project's results will also contain recommendations for local authorities, policy makers, highways concessionaries, etc. on how to abate noise in the most sustainable and optimised way possible.

The event is free of charge and you can register by sending back the reply form below to c.durso@erf.be by 30 November 2012.

Don't miss this opportunity to know more about:

- the near-field / far field relationship for sound reflections on noise reducing devices of different shapes and materials;
- the new QUIESST method for sound reflection and airborne sound insulation in-situ measurements;
- the first database on the intrinsic acoustic performance of various European devices, with comparison of different measurement methods;
- the first research on the holistic optimisation of the use of NRDs thanks;
- the very important consideration about the *effective* sustainability of NRDs

Please find at the bottom the draft **Programme**, the **Reply Form** and the **Meeting Venue**. The final programme will be sent soon along with a reminder.

We are looking forward to seeing you in Brussels.

Sincerely,

Ir. Jean-Pierre Clairbois, QUIESST co-ordinator,
Concetta Durso, QUIESST dissemination manager,
and the whole QUIESST Team
