

ASEAN-EU Science, Technology and Innovation Days, 10-12 May 2016, Hanoi/Vietnam

www.stidays.net

Overall programme (v.1.11.2)

Overall framework

The ASEAN-EU Science, Technology and Innovation Days (STI Days) are initiated by SEA-EU-NET as a bi-regional forum for cooperation activities between Europe and Southeast Asia. The STI Days are open to all actors and stakeholders in the fields of research, development and innovation; thus, giving them the opportunity to build their network, discuss, and engage in exchange on topics of common interest and explore perspectives for new cooperation.

- NASATI/Vietnam is the main organiser, the event is organised within the framework of the EU Commission FP7 funded project SEA-EU-NET (<https://www.sea-eu.net>)
- Location of STI Days: Melia Hotel, Hanoi, Vietnam
- A new philosophy will be behind the STI Days for 2016—**strong focus on academic/industry collaboration**

Programme and Content

The event will last 2 ½ days, and will include the following sessions

- Plenary sessions on ASEAN-EU STI cooperation, with keynote speeches by official representatives and high-level experts;
- An innovation roundtable featuring experts discussing key success factors for industry-academia collaboration
- A dozen scientific workshops, focusing on key societal challenges of common interest to both regions
- An Innovation exhibition aiming to showcase successful SEA-EU STI cooperation
- Information and training sessions for young researchers on funding and mobility opportunities;
- A paper/poster competition open to young scientists;
- Field trips to major research and innovation organisations
