

EU Login - European Commission Authentication Service

Two Factor Authentication

As of Monday 8th of June 2020, 2 factor authentication is required to access certain European Commission services, such as the [Erasmus+ and European Solidarity Corps IT Documentation](#) and the [NAconnECT Wiki](#). For instructions on how to install and set up the EU Login Mobile App [see below](#).

What is EU Login?

The **EU Login** authentication service (previously **ECAS**) is a point for user authentication to a wide range of Commission information systems.

Information

If you already have an ECAS account, you don't have to create a new EU Login account. In EU Login, your credentials and personal data remain unchanged. You can still access the same services and applications as before. You just need to use your e-mail address for [logging in](#).

It is the first step before registering as an organisation or individual when accessing certain IT Tools such as the **Organisation Registration system**, **Application forms**, **Mobility Tool+** or **OEET**.

Every time you want to use a website that requires EU Login authentication, you will automatically be transferred to the EU Login page, where you will be asked to enter your username and password.

Please note:

Depending on the security level required by the application the user is accessing, single-factor (username + password) or multi-factor (username + password + challenge) authentication will have to be provided by the user. Tools such as the Organisation Registration system, Application forms, Mobility Tool+ or OEET will only require single-factor authentication. The access to Erasmus+ & European Solidarity Corps IT Documentation, Sport IT Documentation, ESC IT Documentation and the Project Results platform will require multi-factor authentication. Tools requiring multi-factor authentication will not have the password option available in the **Choose your verification method** drop-down list.

Information

If you are a new user, before you register as an organisation or individual, you must have an **EU Login** account. The account will become inactive after 6 months if not used, but is still accessible and you will be prompted to create a new password should you try to logon after those six months.

How to use EU Login?

- URL
- General "EU Login" screen
- Create a new "EU Login" account
 - Click the "Create an account" hyperlink
 - Fill in the required details and click "Create Account"
 - Click the password creation link in your activation e-mail
 - Create your password and "Proceed" to login
- Set up 2 Factor Authentication with the EU Login Mobile app - For access to IT Documentation and Project Results platform
 - The EU Login Mobile app
 - Initialise the EU Login Mobile App with your mobile device
- Set up 2 Factor Authentication with your mobile number - For access to IT Documentation and Project Results platform
- Sign in to "EU Login" (previously ECAS) account
 - Sign in with e-mail and password - To access tools such as Organisation Registration system, Application Forms, Mobility Tool+ or OEET
 - Sign in with an EU Login account using the EU Login Mobile App PIN code - To access IT Documentation
 - Sign in with an EU Login account using the EU Login Mobile App QR code - To access IT Documentation and Project Results platform
 - Sign in with an EU Login account using Mobile Phone + SMS - To access IT Documentation and Project Results platform
 - Sign in with an EU Login account using On Mobile authentication

- Delete EU Login account

URL

If you don't have an EU Login account please use the following link <https://webgate.ec.europa.eu/cas/eim/external/register.cgi>

If you already have an user account for EU Login please login via <https://webgate.ec.europa.eu/cas/login>

General "EU Login" screen

1. **Cookies notification**

EU Login uses cookies to allow you to log in to different applications without re-entering your e-mail address and password each time. Once you have logged into EU Login you will **not** have to identify yourself again as long as you leave your browser open. If you have chosen the option to not to accept such cookies, you will not benefit from this feature. The cookies are 'per-session' cookies, i.e. they are destroyed when you close your browser.

2. "**Where is ECAS?**" information button. The old ECAS authentication service has been redesigned and renamed as EU Login. Click the **Where is ECAS** button to get more information about the update.
3. **Language Selector**. The EU Login screens are offered in all official languages of the EU. Use the drop-down menu in order to switch between languages.
4. If you already have an EU Login account, use your **e-mail address to sign in**.
5. If you don't have an account yet, you can create one by clicking on the **Create an account** hyperlink.
6. The EU Login offers the possibility to **authenticate using a social media** (Facebook, Twitter and Google) in order to access European Commission applications without having to create a specific EU Login account. This option is only available for external users and is **not yet enabled for all applications open to the public**.

Take note

IT tools that are used in the **Erasmus+ and European Solidarity Corps** programmes **do not support the authentication via social media**.

7. If you wish to link your eID (eletronic ID) to your EU Login account, click on the **Select your country** button.

Take note

IT tools that are used in the **Erasmus+ and European Solidarity Corps** programmes **do not support the authentication using eID**.

8. Access to download and install the **EU Login app** for your mobile devices.
9. Links to **About EU Login**, **Cookies** policy, **Privacy Statement**, **Contact** information and **Help**.

[Create an account](#)

Fill in the required details and click "Create Account"

1. **First name** - Insert your first name.
2. **Last name** - Insert your last name.
3. **E-mail** - Insert your e-mail address. Please remember this must be the same e-mail address provided to the National Agency or DG EAC (for example in your Project Application Form) and it should be valid and active.
4. **Confirm e-mail** - Confirm with the same e-mail address above.
5. **E-mail language** - Choose the language from the drop-down menu.
6. **Enter the Captcha code** - Enter the Captcha code visible on the screen in the field. If the code is illegible, click the refresh button for another code, or click the play button to listen to an audio version of the code.
7. **Privacy Statement check-box** - This check-box must be clicked before creating an account.
8. **Create account button**: Once you have filled in the details, click on the **Create an account** button.
9. **Confirmation**: A confirmation is displayed, confirming the registration.

If the form is correctly filled in, an e-mail is sent to the address you provided in order to verify that you have access to it. After a couple of seconds, you should receive an e-mail in your mailbox. If you cannot find the e-mail, check your spam or junk folder.

The first screenshot shows the registration form with the following fields and steps: 1. First name, 2. Last name, 3. E-mail, 4. Confirm e-mail, 5. E-mail language (English (en)). Below the fields is a captcha field with a refresh button and an audio play button. A checkbox for the privacy statement is at the bottom, followed by the 'Create an account' button.

The second screenshot shows the form with steps 6-8: 6. Enter the captcha code, 7. Privacy statement checkbox, 8. 'Create an account' button.

The third screenshot shows a confirmation message: 'Thank you for registering, you will receive an e-mail allowing you to complete the registration process.'

Click the password creation link in your activation e-mail

Once you have registered, you will receive an e-mail with your **username** and a link for creating your **EU Login password**.

Click on the link in your e-mail.

Take note

You have a **maximum of 24 hours**, starting from the time that the message was sent, to create the password. You are advised to do so immediately, if possible. If you do not react within the 24 hours, you can make another request by following the same link; you will need to provide your username again and confirm your request. It may take up to 5 minutes after reception of this mail before the site will recognise your registration.

From: **Authentication Service** <automated-notifications@nomail.ec.europa.eu>
 Date: Mon, 8 Apr 2019 at 14:52
 Subject: Your password
 To: Jane Participant <mail@mail.com>

Dear Jane Participant,

You have been registered in EU Login.

Your email address is mail@mail.com.

To create your password, follow the link below:
[this link](#)

You have a maximum of 24 hr, starting from the time that this message was sent, to create your password, but you are encouraged to do so immediately if possible. After this time, you can make another request by following the same link: you will then need to re-enter your username and confirm your request.

If the above link does not work, you can copy the following address (make sure the complete address is copied!) and paste it into your browser's address bar:
<https://webgate.ec.europa.eu/cas/init/initialisePasswordLogin.cgi?wayf.domain=external&wayf.remember=checked&wayf.submit=Select&uid=m002ojoq&resetCode=c5fet4H2rkpfglQMNWVlWZ5E1DegK6MXMazPAB1K>

Instead of replying to this message, if you have a problem, please follow the help or contact information on the site where you were trying to register.

Note that it may take up to 5 minutes after reception of this mail before the above-mentioned site will recognize your registration.

Sent to you by EU Login

Create your password and "Proceed" to login

Once you click on the link, a new screen will open, allowing you to create your password.

1. Enter and confirm your password. Select a password as long and as complex as you can in order to make your account more secure.
2. Click on the **Submit** button.
3. Click on the **Proceed** button in order to log in to EU Login. A new screen will open informing you about successful login to EU Login.

Information

Remember that the password:

- must be at least 10 characters long,
- may not contain your username (login) or any part of your full name,
- must be changed every 3 months (a reminder is automatically sent 15 days before the expiry date)
- should never be the same as any of your last 5 passwords.

The image displays two side-by-side screenshots of the EU Login interface. The left screenshot, titled 'New password', shows a form with a message 'Please choose your new password.' and a username 'n002p2wc (External)'. It features two input fields: 'New password' (marked with a red circle '1') and 'Confirm new password' (marked with a yellow circle '1'). A 'Submit' button is highlighted with a red circle '2'. Below the form, there is a list of password requirements and a link to 'Generate other sample passwords'. The right screenshot, also titled 'New password', shows a success message 'Your EU Login password was successfully changed.' and a 'Proceed' button highlighted with a red circle '3'. Below this is another screenshot titled 'Successful login' with a message 'You are now logged in to EU Login.' and instructions to click 'Logout' or close browser windows.

Set up 2 Factor Authentication with the EU Login Mobile app - For access to IT Documentation and Project Results platform

Depending on the security level required by the application you are accessing, single factor (e-mail + password) or multi factor (username + password + challenge) authentication will have to be provided. It is therefore recommended to set up the 2 factor authentication as soon as you have created your EU Login account. If multi factor authentication is required, beside the password you will need to set up an additional verification method from the available options.

Tools requiring 2 factor authentication will not have the password option available in the **Choose your verification method** drop-down list.

The screenshot shows a login page for 'FPFIS' with the heading 'Sign in to continue'. Below this, it says 'Welcome' and displays the email 'mob.train3.ben@gmail.com (External)'. There is a link for 'Sign in with a different e-mail address?'. A 'Password' field is present with a 'Lost your password?' link. The 'Choose your verification method' dropdown menu is open, showing options: 'EU Login Mobile App PIN Code', 'EU Login Mobile App QR Code', 'Mobile Phone + SMS', 'Token', 'Token CRAM', and 'Security Key or Trusted Platform'. A red callout box points to the dropdown menu with the text: 'No password option available? 2 factor authentication is required.'

The EU Login Mobile app

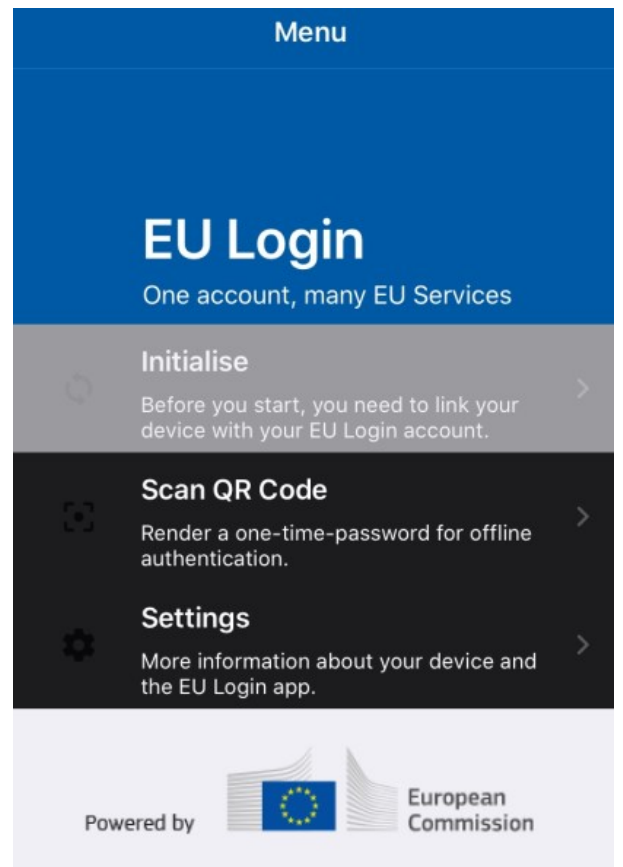

The EU Login Mobile App can be used when accessing a service that requires increased security. The EU Login Mobile App is free and can be obtained from the Google Play Store (Android), the App Store (iOS) or the Windows Store (Windows Phone). The direct links are available on the EU Login screen.

After installing it, you need to initialise it. In order to do so, you need a PC in addition to your mobile device.

The EU Login Mobile app offers a variety of options to log in once activated.

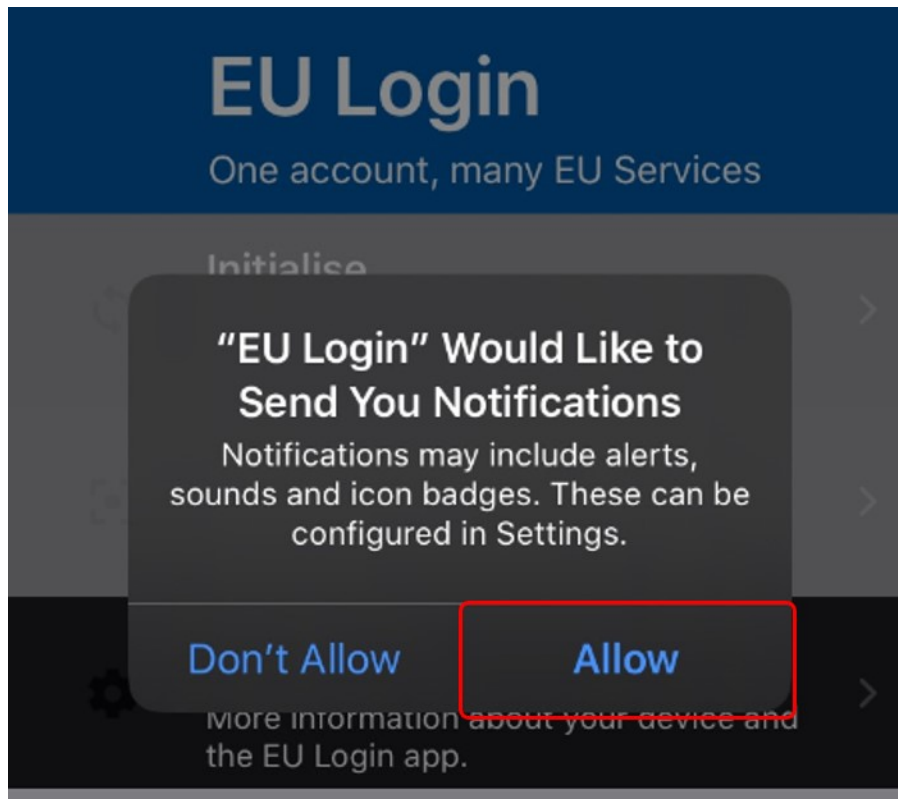

1. **EU Login Mobile App PIN code** - If the mobile device where your EU Login Mobile App is installed has internet connectivity then you can use the "EU Login Mobile App PIN Code" verification method.
2. **EU Login Mobile App QR code** - If the mobile device where your EU Login Mobile App is installed does not have internet connectivity then you can use the "EU Login Mobile App QR Code" verification method.
3. **On mobile authentication** - If you are navigating on the same mobile device as the one where the EU Login Mobile App is installed then you can use the "On Mobile" verification method.

The above methods can be used without compelling the user to expose a mobile phone number. Alternatively, you can also use Mobile phone + SMS to log in to the Commission IT systems and services.

Initialise the EU Login Mobile App with your mobile device

To initialise the EU Login Mobile App you need your mobile device and a computer. Download the app on your mobile device. Make sure you **allow notifications**, otherwise you will not be able to use the app.

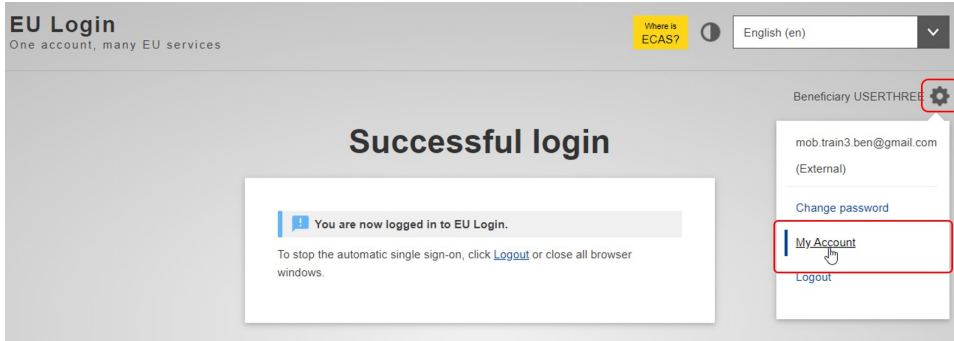

On your PC, log in to EU Login with your e-mail address and password.

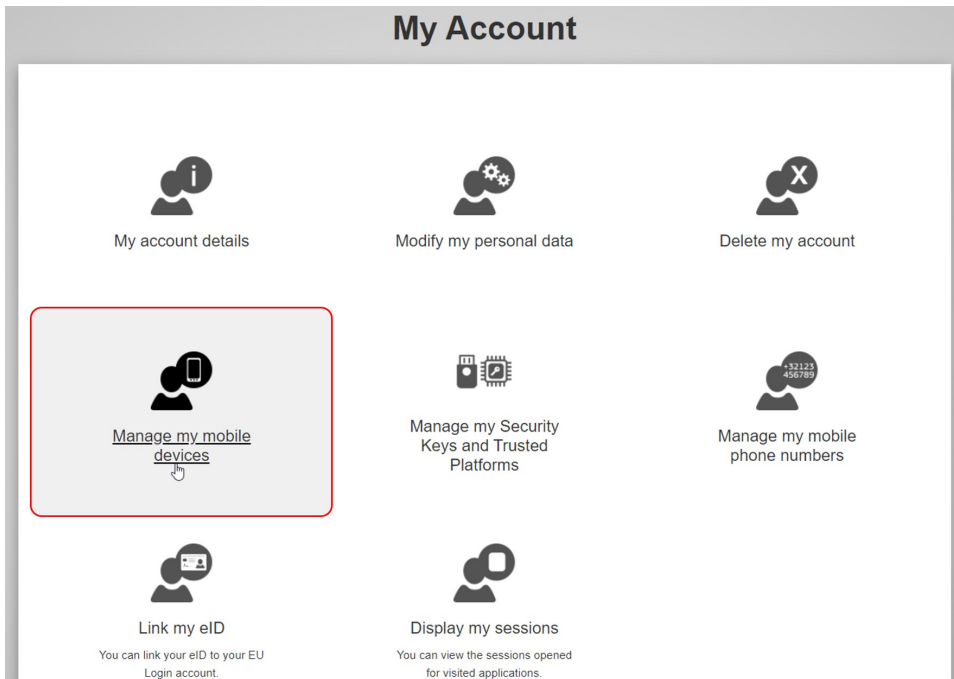

Take note

If you already installed and initialised the EU Login Mobile App on another device or if you registered your mobile phone number for receiving SMS, you are requested to authenticate again using the already registered device or phone number.

To access your EU Login account details, click on the **settings** (gear) icon in the upper right corner and click on **My Account**.

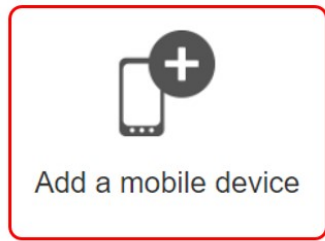

The **My Account** page opens. Select **Manage my mobile devices**.

Click on **Add a mobile device**.

Manage my mobile devices

[← My Account](#)

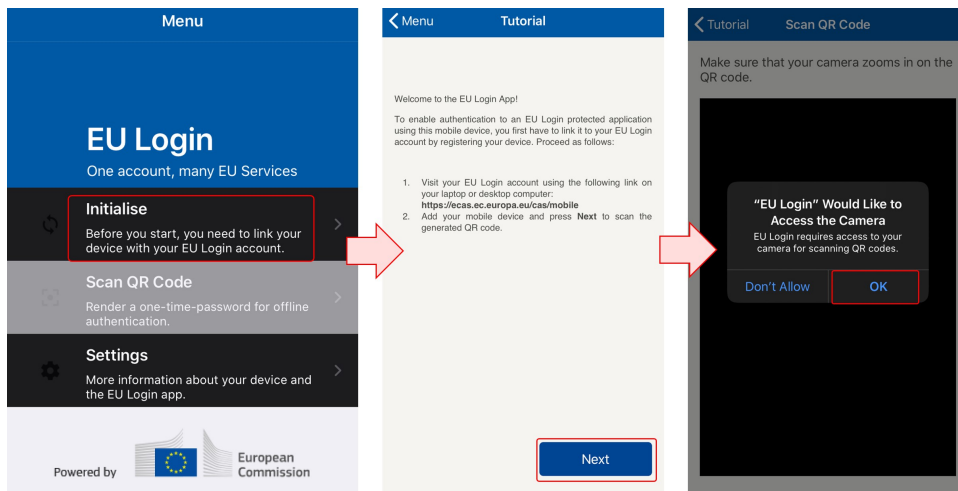

Fill in the required information in the **Add a mobile device** screen. You have to provide a **name** for your device and set up a **4 digit PIN** code.

You can pick any name that suits you, such as "My Android tablet", "My iPhone" or "My blue Windows phone". You will be prompted to provide the PIN code when authenticating so make sure you select one that you can easily remember. However, avoid PIN codes that can be easily guessed, such as your birth year or birthday and month.

Click on the **Submit** button.

The image shows two sequential screenshots of the "Add a mobile device" form. The first screenshot shows the form with three input fields: "Your device name", "Your 4 digit PIN code", and "Confirm your PIN code". The "Your device name" field is highlighted with a red border. The second screenshot shows the same form with the "My phone" text entered in the "Your device name" field, "...." in the "Your 4 digit PIN code" field, and "...." in the "Confirm your PIN code" field. The "Submit" button is highlighted with a red border and a mouse cursor is pointing at it.

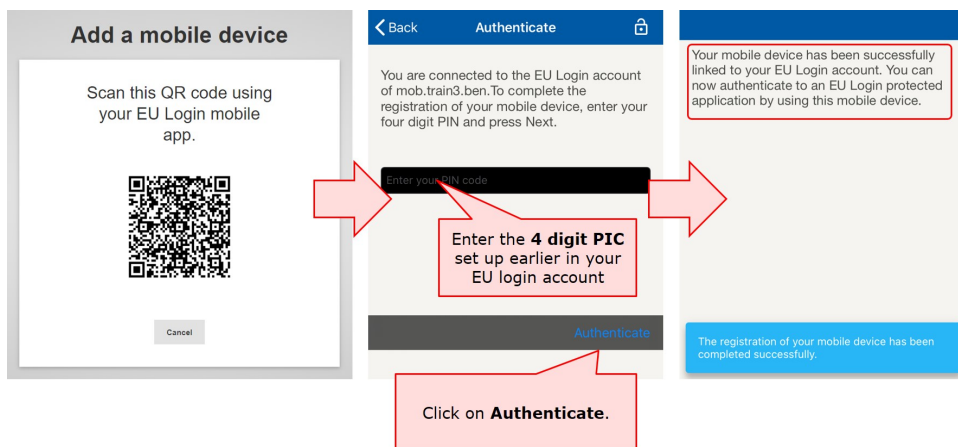

On your mobile device, open the EU Login Mobile App and select the **Initialise** option. Follow the instructions on screen and allow access to your camera.

The QR code scanner starts on your mobile device and a QR code is displayed on the screen of your PC. Point the camera of your mobile phone to your PC screen until the QR code is recognised. In the Authenticate screen, enter the **4 digit PIN** code you set up earlier and click on **Authenticate**.

A **success message** displays on your device, confirming the setup of your mobile device with EU Login. Your EU Login Mobile app is successfully initialised and can be used for authenticating. Click on **Continue** to be redirected to the Welcome screen.

You can now use your mobile device to access the European Commission services that require 2 factor authentication, either by using the 4 digit PIN or by scanning the QR code.

If your device is equipped with Fingerprint recognition (TouchID), an automatic pop up will be displayed to **Enable Fingerprint recognition**. You can enable this function by clicking on **YES**. If you do not want to enable Fingerprint recognition, click on **SKIP**.

Set up 2 Factor Authentication with your mobile number - For access to IT Documentation and Project Results platform

Log in to EU Login with your e-mail address and password. To access your EU Login account details, click on the **settings** (gear) icon in the upper right corner and click on **My Account**.

Click on **Manage my mobile phone numbers** to add your mobile phone details and follow the onscreen instructions.

Take note

If you have already installed and initialised the EU Login Mobile App on a device or if you registered another mobile phone number for receiving SMS, you are requested to authenticate using the registered device or phone number.

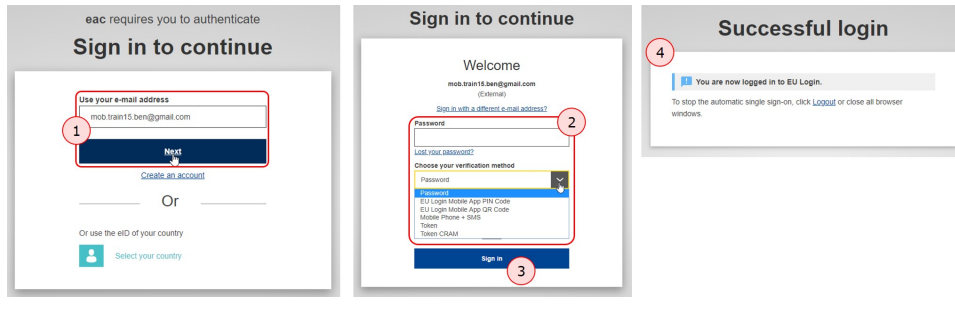

After your number is added, a **challenge code** is sent via SMS to your mobile number. Enter this code in the **Text message challenge code fields** and click on **Finalise**. Your mobile number is now added to your account and can be used to log in to EU login, if 2 factor authentication is required.

Sign in to "EU Login" (previously ECAS) account

Once your EU Login account is created, you can use it to access a multitude of services. While accessing these services, the EU Login screen will display whenever authentication is needed.

Sign in with e-mail and password - To access tools such as Organisation Registration system, Application Forms, Mobility Tool+ or OEET

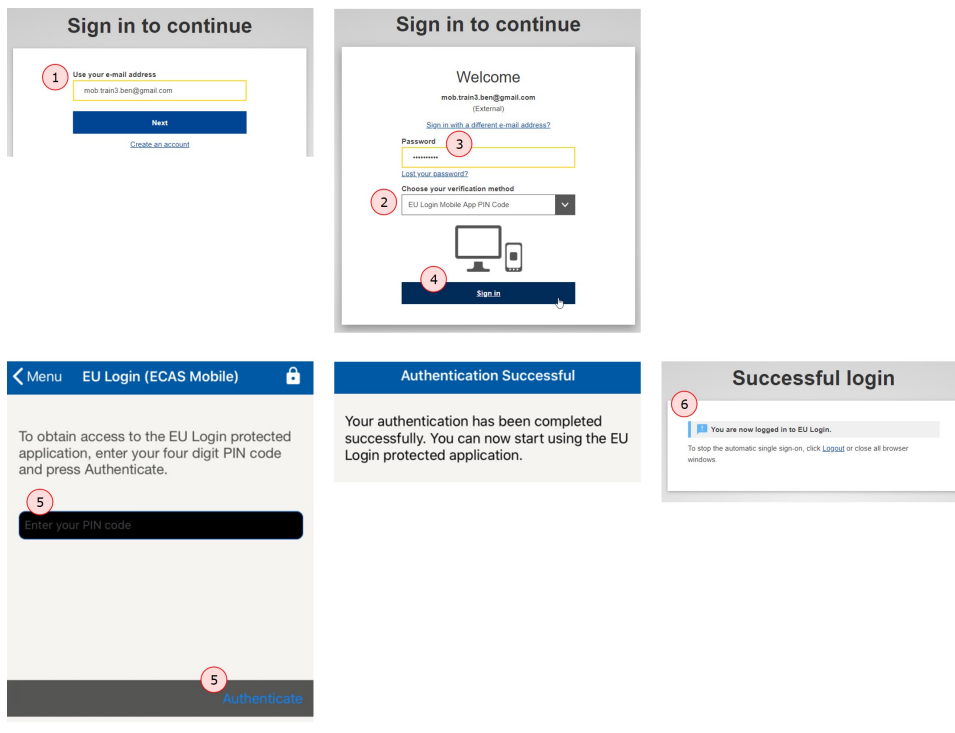

1. Enter your **e-mail address** and click **Next**. The e-mail must be the same provided while creating the EU Login account.
2. **Enter** your EU Login **password**. Make sure you select the verification method **Password**.
Note: If the password option is not available in the drop-down list, the tool requires multi-factor authentication.
3. Click **Sign In**.
4. After successful login, a **Confirmation message** displays.

Sign in with an EU Login account using the EU Login Mobile App PIN code - To access IT Documentation

Tools requiring multi-factor authentication will not have the password option available in the **Choose your verification method** drop-down list.

1. Enter your **e-mail address** and click **Next**.
2. Select **EU Login Mobile App PIN Code** as the verification method.
3. Enter your password in the **Password** field and click on **Sign in**.
 - If you have more than one device with an initialised EU Login Mobile App, you are asked to select the one you would like to use. This screen does not display if you have only initialised one device.
 - Click on the device using the name you provided.
4. EU Login sends a notification to your mobile device. Tapping on the notification triggers the launch of the **EU Login Mobile App**.
5. The EU Login Mobile App prompts you to **enter your PIN code**. Enter your PIN code and tap on **Authenticate**.
6. This automatically completes the process on your PC that proceeds to the service you requested to use.

Sign in with an EU Login account using the EU Login Mobile App QR code - To access IT Documentation and Project Results platform

Tools requiring multi-factor authentication will not have the password option available in the **Choose your verification method** drop-down list.

1. Enter your **e-mail address** and click **Next**.
2. Select **EU Login Mobile App QR Code** as the verification method.
3. Enter your password in the **Password** field and click on **Sign in**.
4. A **QR code** is displayed on screen.
5. Start the **EU Login Mobile App** on the mobile device where it has been previously initialised. Tap on **Scan QR Code**. The QR code scanner starts on your mobile device. Point the camera of your mobile phone to your PC screen until the QR code is recognised.
6. The EU Login Mobile App displays a **one-time password** composed of digits and characters.
7. Type the one-time password in the **code generated by your app** field.
8. Click **Sign in** to proceed to the service you requested to use.

The image displays a sequence of six screenshots illustrating the sign-in process for the EU Login Mobile App QR code authentication:

- Sign in to continue:** Step 1: User enters their e-mail address (mob.train3.ben@gmail.com) and clicks **Next**.
- Sign in to continue:** Step 2: User selects **EU Login Mobile App QR Code** as the verification method. Step 3: User enters their password and clicks **Sign in**.
- QR code authentication:** Step 4: A QR code is displayed on the screen for scanning.
- EU Login Mobile App:** Step 5: The app displays the **Scan QR Code** option in the **Initialise** section.
- Scan QR code:** Step 6: The app displays a **Congratulations!** message and the generated one-time password: **12 34 56 78**.
- QR code authentication:** Step 7: The user enters the code generated by their app (12345678) and clicks **Sign in**.

Sign in with an EU Login account using Mobile Phone + SMS - To access IT Documentation and Project Results platform

Tools requiring multi-factor authentication will not have the password option available in the **Choose your verification method** drop-down list.

1. Enter your **e-mail address** and click **Next**.
2. Select **Mobile Phone + SMS** as the verification method.
3. Enter your password in the **Password** field.
4. Enter a previously registered mobile phone number in the **Mobile phone** field, starting with a plus sign and with the country code. Do not include dots, parenthesis or hyphens.
5. When clicking **Sign in**, an SMS is sent to your mobile device. The SMS contains a **challenge code** made of nine characters separated with hyphens (minus sign).
6. Type the challenge you received in the **SMS text challenge** fields.
7. Click on **Sign in** to proceed to the service you requested to use.

The image shows three sequential screenshots of the sign-in process:

- First screenshot:** Titled "Sign in to continue". It shows a form with a "Use your e-mail address" label and a text input field containing "mob.train3.ben@gmail.com". A "Next" button is below the field. A red circle with the number "1" is around the "Use your e-mail address" label.
- Second screenshot:** Titled "Sign in to continue". It shows a "Welcome" message for "mob.train3.ben@gmail.com (External)". Below is a "Password" field with a red circle "3" around it. A "Choose your verification method" dropdown menu is set to "Mobile Phone + SMS" with a red circle "2" around it. Below is a "Mobile phone" field with a red circle "4" around it. A "Sign in" button is at the bottom with a red circle "5" around it.
- Third screenshot:** Titled "Sign in to continue". It shows "Authentication by SMS text challenge". It asks to "Enter the challenge sent to your mobile phone by SMS text message". Below is a "Mobile phone number" field with a red circle "6" around it. Below that are two input fields for the "SMS text challenge" with a red circle "7" around the first one. A "Sign in" button is at the bottom.

Sign in with an EU Login account using On Mobile authentication

The **On Mobile verification** method is only available when browsing on a mobile device and should only be used if an EU Login Mobile App has been previously installed and initialised on that same device.

1. Enter your **e-mail address** and click **Next**.
2. Select **On Mobile Authentication** as the verification method and tap on **Sign in**.
3. The **EU Login Mobile App** opens automatically and prompts you to enter your **PIN code**.
4. Enter your **PIN code** and tap on **Authenticate**.
5. If the app is active (in the foreground), it will automatically redirect you to the browser selector.
6. If the app is in the background, a notification is displayed on your device. Please accept this notification to be redirected successfully.
7. You are now successfully authenticated.
 - Click on **Default browser** to be redirected to your application. This step is only needed for IOS users.

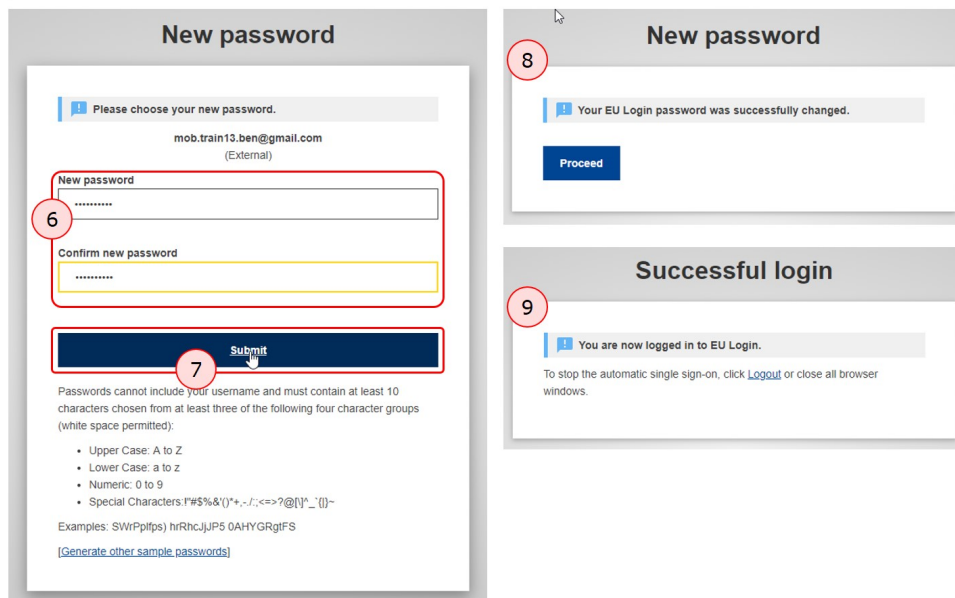

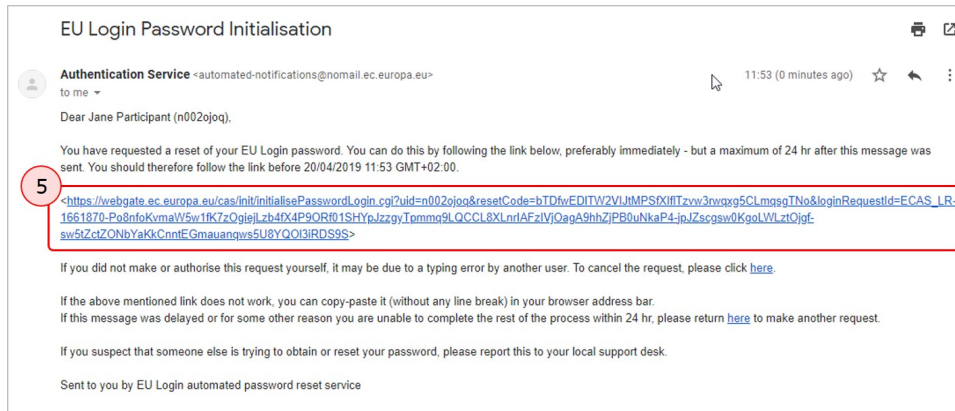

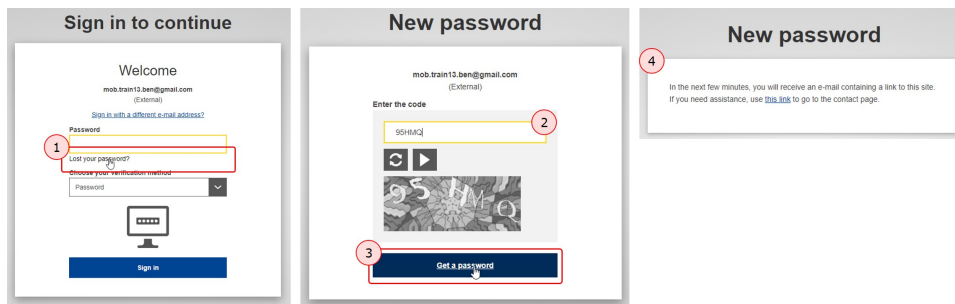

Forgotten password?

If have forgotten your EU Login password, do the following:

1. Click the **Forgot password?** link on the login page, after you entered your e-mail address.
2. Enter the **challenge code**.
3. Click on the **Get a password** button.
4. A **confirmation message** displays, informing you of the e-mail you will receive with a link to reset your password.
5. In the e-mail, click on the **link to reset your password**.
6. On the opened EU Login page, **enter your new password and confirm**.
7. Click the **Submit** button.
8. Once the password has been changed, click on the **Proceed** button to continue to sign in.
9. Another **confirmation message** displays after successful connection.

Take note

You cannot reset your password if your account is locked. This happens if too many incorrect passwords are entered in a row. You will not be able to log in or reset your password during this period. Wait 15 minutes until the account is automatically unlocked.

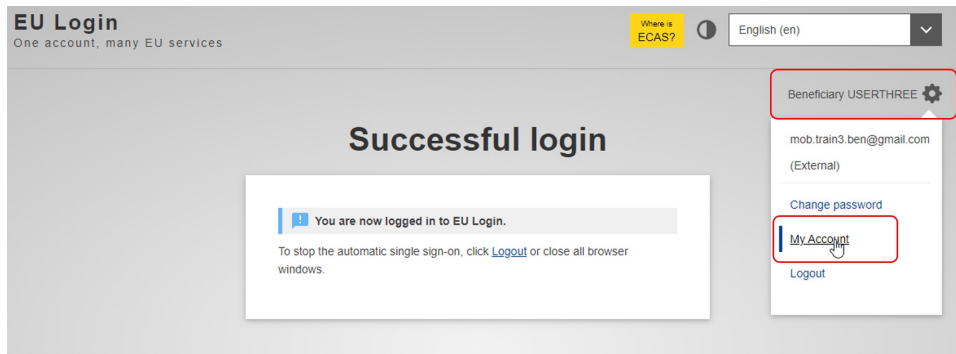

Help and Frequently asked questions

If you need help or need to check the frequently asked questions, click on the **Help** hyperlink at the bottom of the EU Login page.

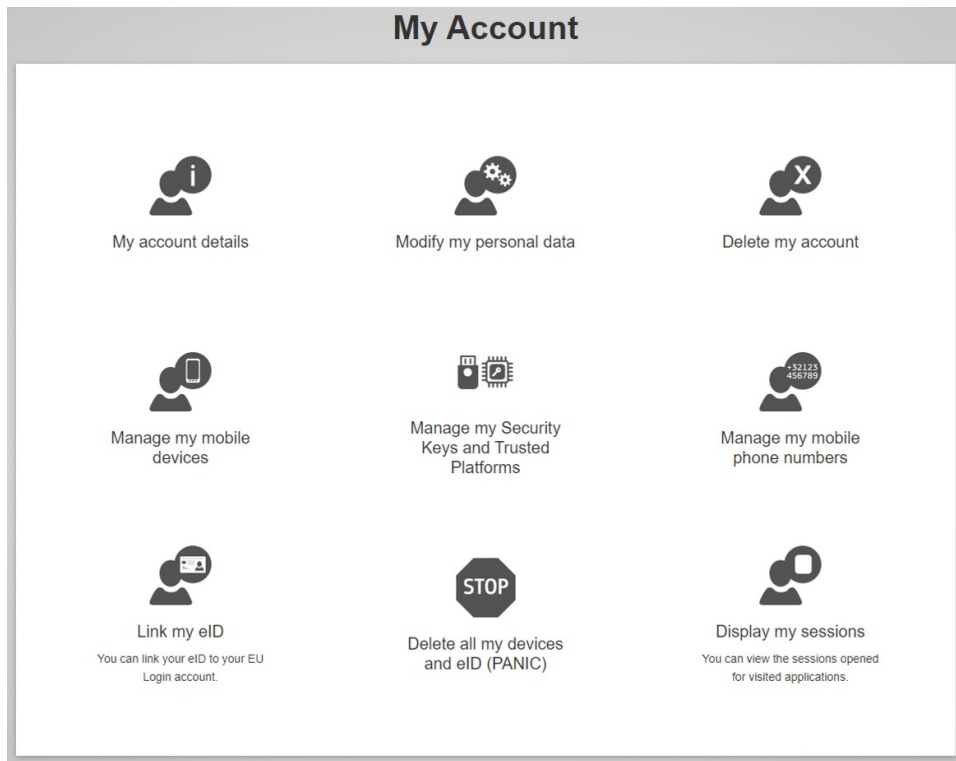

The screenshot displays the EU Login interface. At the top left, it says "EU login - One account, many EU services". To the right, there is a yellow button labeled "Where is ECAS?" and a language selector set to "English (en)". The main heading is "Sign in to continue". Below this, there is a form with the label "Use your e-mail address" and an empty input field. A blue "Next" button is positioned below the input field. Underneath the button is a link that says "Create an account". A horizontal line with the word "Or" in the center separates this from the social media options. There are three buttons for social login: "Facebook" (blue), "Twitter" (light blue), and "Google" (red). Below these is the text "Or use the eID of your country" and a teal button labeled "Select your country". At the bottom of the page, a dark blue footer contains several links: "About EU Login", "Cookies", "Privacy Statement", "Contact", and "Help". The "Help" link is highlighted with a red rectangular box. To the right of the footer is the European Commission logo and the text "European Commission Powered by". On the far left of the footer, it says "European Union EU institutions" and in the center, "4.10.0-d2d | 61 ms".

My Account

To access your EU Login account details, click on the settings (gear) icon in the upper right corner and click on **My Account** . This is only possible if you are logged in.

The **My Account** page opens. Here you can choose a number of options to edit your account details.

My account details

Under **My account details** you find general information about your EU login, such as Username, Unique identifier (uid), Most recent login, Last password reset and more. All information here is read only.

Manage my Security Keys and Trusted Platforms

This feature enables you to manage the Key-ID tokens and trusted platforms you use for 2 factor authentication. Insert the security key into your device.

1. Click on **Manage my Security Keys and Trusted Platforms**. You may need to authenticate with a stronger authentication method.
2. Click on **Add a Security Key** or **Add a Trusted Platform**.
3. Enter a **device name** and click on **Submit**.
4. A message will pop up: **Credential registration in progress**. Your browser will open a popup window to request access to extended information about your authenticator.
5. Click on **Proceed**.
Please **do not tick the Anonymise anyway checkbox**, otherwise it will not be possible to use this authentication method.
6. **Validate the fingerprint** on your security key. You will then see a success message: **A security key has been added**.

[← My Account](#)

Link eID

To link your eID (electronic ID) to your EU Login account, click on **Link my eID**. This option can link your national electronic identity card to your EU Login account.

Information

This option is only available for some countries (see screenshot below) and a card reader is necessary.

Take note

IT tools that are used in the **Erasmus+ and European Solidarity Corps** programmes **do not support the authentication using eID**.

[Link my eID](#)

You can link your eID to your EU Login account.

Log in with your eID

Please select your country of origin

eID Authentication

eID authentication is provided in accordance with the [eIDAS regulation](#) for all notified eID schemes. Additional eID schemes are supported on a voluntary basis.

Delete all my devices and eID (PANIC)

If you set up mobile devices and/or eID in your EU login, you have the option to **Delete all my devices and eID (PANIC)**.

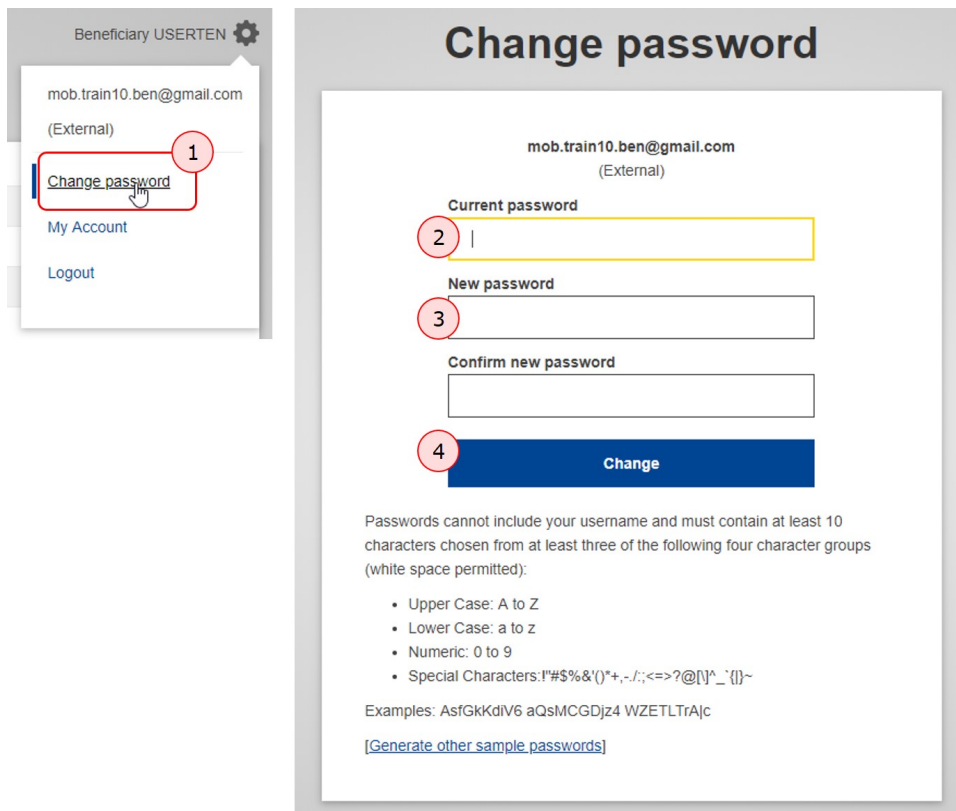

Using this option will revoke the options to authenticate using any mobile phone number, mobile device, hardware token or electronic ID linked to your account. You will lose access rights to some applications requiring the 2 factor authentication. You will also be logged out from EU Login.

Change password

To change your password:

1. From the EU login page, click the settings (gear) icon and select **Change Password**.
2. Enter your current EU login password.
3. Enter the new password you would like to set up in the respective fields.
4. Click **Change** to save.

Delete EU Login account

To delete your EU Login account, click on **Delete your account** and follow the instructions. Please also notify the National Agency or DG EAC that you no longer require access to the DG EAC Tools. If possible or applicable, please mention your replacement.

Important

All access rights will be revoked and unrecoverable once deleted.

Delete my account - Confirmation required

 **Warning! You are about to delete your EU Login account.**

All access rights assigned to this account will be revoked. You will not be able to recover them.
